Subject: Re: Bulletin

Rich and FYI to Lora,

40cfr372.65 chemicals in Dimock residential wells, based on Cabot/PADEP/private well data collected between mid-2008 through Fall 2011:

1. Bis(2-ethylhexyl)phthalate
2. Ethylene glycol
3. 2-Methoxyethanol
4. tert-butyl alcohol
5. Phenol
6. Cresol (mixed isomers) - 3 and 4 methylphenol
7. Arsenic
8. Barium
9. Manganese

Additional chemicals (#s above 3, 4, 6, and 8) not included in your current special bulletin draft is 2-methoxyethanol, tert-butyl alcohol (low and only one hit though, but not naturally occurring), cresols (also low but not natural), and barium.
